

CONFIDENTIAL

10 December 1982

MEMORANDUM FOR: Executive Director

FROM: Stanley Sporkin
General Counsel

SUBJECT: Weekly OGC Report for the DCI/DDCI

ITEMS OF MAJOR INTEREST - 4 December - 10 December 1982

25X1

Intelligence Personnel Protection Legislation (S.2552).
On Thursday, 9 December, we were successful in having the text of S. 2552, which was passed by the Senate on 1 October, added as a floor amendment to the Senate version of the House-passed "Justice Assistance Act of 1982," which will go to a House-Senate Conference Committee upon final passage by the Senate. This maneuver gives House Judiciary Subcommittee on Crime Chairman William J. Hughes, whose Subcommittee handled the Justice Assistance Act in the House, an opportunity to follow through on his commitment to work for enactment of the first section of S. 2552, which would make violent attacks upon Intelligence Community officers and employees federal criminal offenses.

Executive Order 12333 Briefings. OGC has been continuing its extensive program of briefings on Executive Order 12333 and its implementing procedures. On Monday, 6 December, an all-day briefing was held for the Office of the Inspector General, and on Wednesday, 8 December, two 2-hour briefings were presented to managers in the DDI. The content of the various sessions was tailored to the needs and interests of the various participants.

DCI Weekly Report
Office of the Inspector General

Audit Staff:

[REDACTED] will assume charge of the Audit Staff on 20 December.

25X1

HPSCI:

As mentioned last week, I met this week with Tom Latimer, HPSCI Staff Director. Mr. Latimer asked a number of questions about our conduct of the Ed Wilson investigation. In particular, he was interested in our views on what, if anything, we have learned from the Wilson affair and what we might do to deal with any lessons learned. I have written a more detailed Memorandum of Conversation which I will forward separately.

Inspections:

Survey of Staff Applicant Processing Procedures: We briefed the DDA on our findings and sent the draft report to him, the Office of Security, the Office of Medical Services, and the Office of Personnel.

~~SECRET~~COMPTROLLER CHECKLIST

25X1

In addition, ^{*}the House failed to adopt authorization action adding 30 analysts to the Agency program. We have prepared and submitted an appeal to the IC Staff on these issues. The timing of conference is uncertain at this point. Senate action on the Defense Bill is scheduled to begin today.

- Space Requirements. I have been advised by the House Intelligence and Senate Appropriations Committee staffs that they have recommended approval of our reprogramming request to lease [REDACTED] Barring any unanticipated difficulties, formal approval from these two committees should be received next week, which will complete the congressional approvals required to move forward on this initiative.
- New Building. After consultation with OMB, it has been decided to incorporate funding for the new building within the Agency's classified budget request. Discussions with our oversight committees suggest, however, that they may decide to separate it out as an open appropriation. Funding for the present Headquarters building was provided through an open appropriation so this should not present any insurmountable problems. Other committees having jurisdiction over construction projects may become involved to some extent, but it is not likely this could have been prevented anyway.
